Stockland Green School

5th January 2021

Dear Parents/Carers,

Remote Learning

Further to the previous letter, we would like to expand on how home (remote) learning will now take place.

All students who are not attending vulnerable / critical care worker provision will access their home learning via **Microsoft Teams**. Advice on how to access this can be found on the school website at [this link](#). If you then access individual year groups via the relevant icon on the page, there is advice on how to access Microsoft Teams. Alternatively, the Microsoft Teams App can be downloaded onto all devices and students then log on using their normal school log on details.

Students will follow their normal school timetable and complete work/learning activities for the lessons that they would attend if they were in school. Students will need to check [Go4Schools](#) for their timetable.

Students will need to log onto Microsoft Teams at the time that their normal lesson would take place. Some teachers will be delivering 'live lessons' online and students will need to log onto Teams at the right time and check the chat facility for any instructions. 'Live lessons' may not always be appropriate or available for every lesson, however high-quality learning activities will always be provided.

Students must complete the work set as this will be monitored by their teachers and praise will be awarded for participation and completion of work on Go4Schools.

Teachers will be available to answer questions, give feedback and help students if they are stuck. They can be contacted via the messaging/chat function on Teams. Teachers may be engaged in face-to-face lessons therefore a response may not be received instantly.

If you have any issues logging in, passwords can be reset by following the link in the blue box on the home page of the [school website](#).

We appreciate your support during this dynamic situation, and we will keep updated with any further changes.

Kind regards,

The Leadership Group
